This workshop has been designed to provide you with the knowledge, understanding and tools to develop your team to become a high performing team.

During this workshop you will:

- Identify the five (5) key elements of a high performance team
- Understand and utilise the Belbin Team Styles Inventory to identify current team role behaviours
- Identify gaps and establish preferred team role behaviours
- Align and match job tasks to your individual team members' preferences to increase team engagement and performance

To maximise the benefit and extent of insight gained from the workshop, we strongly recommend that all participants to this workshop undertake the Human Synergistics Life Styles Inventory (LSI).

The LSI identifies the underlying thoughts and motivations that guide an individual's behaviour. Often referred to as personal styles, management styles and leadership styles, these represent the essence of an individual's effectiveness.

For an additional investment this inventory can be completed prior to attending the workshop and is inclusive of a comprehensive report and a 1.5 hour one on one coaching session.

Dates

Tuesday 11th May

Wednesday 10th November

Investment \$385
